

WITH GREAT POWER
COMES GREAT ABILITY.

 **LYCOMING
THUNDERBOLT**
ENGINE

KEEP YOUR LYCOMING ENGINE THUNDERING THROUGH THE SKY.

Dreaming about flying, but your TBO is up, it's time to inject new life into your engine with a Lycoming factory overhaul or a complete engine rebuild.

A Lycoming factory overhaul features 100% genuine Lycoming parts and a factory exchange program that will have you back in action again in no time. The engine is overhauled at our factory and shipped back to you for installation with minimal downtime. And it's backed by a one-year factory warranty, regardless of the number of hours you've flown.

A better way to increase the value of your airplane is opting for a rebuilt engine that is manufactured using strict processes and specifications which bring the engine back to new engine standards. And the best part is that your rebuilt engine gets a zero-time logbook, as if it was a brand new engine. It also comes with a two-year warranty as well as the exhilarating performance and the peace of mind that only comes from Lycoming.

To find a Lycoming authorized distributor near you, visit Lycoming.com.

MICHAEL GOULIAN

Michael Goulian is a jaw-dropping aerobatic pilot and a competitor in the Red Bull Air Race World Championship. His aerial acrobatics have thrilled fans for more than two decades. Michael takes to the sky in his custom-built ABS.TV Extra 300SHP aircraft that's powered by a new Competition Series AEIO-580 Thunderbolt Engine. His Thunderbolt cranks out 350 horsepower to hit top speeds of 260 mph and can handle up to 10 Gs.
