

ATTACK THE SKY WITH
SOME SERIOUS ATTITUDE.

LYCOMING

THERE'S NO REPLACING LYCOMING.

When it comes to keeping your prop turning and your maneuvers precise, it just makes sense to get your replacement parts from the same people who designed and built your engine. Lycoming designs, builds and tests each engine as a total system to deliver unmatched aerial exhilaration. Using genuine Lycoming replacement parts is the only way to maintain the quality, efficiency and reliability of your Lycoming engine.

We offer everything from factory new parts to new engines that leave the factory with a full, two-year part and labor warranty. Whether you need a cylinder kit, a camshaft assembly or any other genuine Lycoming part, Lycoming provides complete product support and well-stocked inventories at locations worldwide, backed by an experienced team of factory-trained technicians. Bottom line – you can get the factory-engineered replacement parts you need, where and when you need them. So when it's your turn to grab the stick, stay with the name that means genuine performance – Lycoming.

SEAN D. TUCKER

Sean D. Tucker flew his first airshow in 1976 and has thrilled thousands of fans ever since. As the world's leading civilian airshow pilot and performer, he's a living legend in aviation. Tucker flies a one-of-a-kind Oracle Challenger II biplane that's powered by a customized Lycoming AEIO-540 engine. The fuel-injected engine produces more than 400 horsepower and has fuel and oil systems designed for inverted flight and aerobatic maneuvers.
